

## Introducing the NEW Cantata m100 mono amplifier

Resolution Audio is proud to introduce the latest addition to our Cantata series: the m100 mono amplifier. This amplifier features the same discrete, ultra-pure Class A/B circuit topology as our highly regarded C50 integrated amplifier, with an increased rating of 100 watts. Now a full Cantata system can be enjoyed even when using less efficient loudspeakers.

The m100 mono amplifier includes two sets of banana jacks to accommodate bi-wire configurations, and accepts either an RCA or XLR input from our Cantata Music Center or any preamplifier.

The sonic signature is cut of the same cloth as the C50, while providing twice as much power per channel at the output, there is a greater dynamic capability even at lower listening levels, courtesy of the additional headroom in the power supply.

We invite you to listen for yourself and experience the musical rewards.

## Specifications

Dimensions: 43 x 22 x 5 cm (net) / 54 x 33 x 22 cm (shipping)  
Weight: 5.5 kg (net) / 12 kg (shipping)  
Power Requirements: Preconfigured at factory  
100-120 / 200-240 VAC, 50-60 Hz  
Power Consumption: 160 Watts maximum active mode, < 1 Watt standby mode

Inputs:  
Balanced: XLR  
Single-Ended: RCA (jumper must be installed in XLR input)

Outputs:  
Speaker: 2 pair, 4mm banana  
Red – positive (+)  
Blue – negative (-)  
Yellow – ground (if available on loudspeaker)

Power Output: 100 watts into 8 ohms <1%  
Input Sensitivity: 700mV for rated output  
Gain: +31.5dB
